## WORK EXPERIENCE

---

### Hellenic Armed Forces (Compulsory service)

September 2022 – May 2023

Member of the Research and Informatics Corps  
Greece

- Diagnosed and repaired computers that were experiencing both software and hardware problems.
- Operated, setup, and reconfigured camera software, ensuring consistent functionality.
- Trained and assisted new team members with camera procedures and operations.
- Drove Humvees and operated their radar systems in various situations.

### House of Chesterfields

March 2018 – July 2018

Sales clerk

Athens, Greece

- Discuss customers needs and wants and assist them with finding the right furniture for their home.

## EDUCATION

---

### University of Stirling

September 2018 – June 2022

Bachelors of Science with Honours Computing Science  
Stirling, United Kingdom

- Experience working with JavaScript, Java, HTML, CSS, SQL and Kotlin.
  - (Java) In collaboration with other students, developed parking lot software that would track customers' time of use and payment status.
  - (Springboot) Developed backend for an event tracker web application.
  - (HTML, CSS, JavaScript) Developed an easy to read website that would help teach children beginner level Java.
  - (Kotlin, Android Studio) Android application consisting of music theory, images, quizzes, scoring system and night mode. The goal of the app is to help people that want to learn music theory.
